

## ADVANCE APPROPRIATIONS

An advance appropriation is one made to become available one year or more beyond the year for which the appropriations act is passed. Advance appropriations in 2023 appropriations acts will become available for programs in 2024 or beyond. Since these appropriations are not available until after 2023, the amounts will not be included in the 2023 totals, but will be reflected in the totals for the year for which they are requested.

The Congressional Budget Act of 1974 (31 U.S.C. 1105(a)(17)) requires inclusion in the budget of "information on estimates of appropriations for the fiscal year following the fiscal year for which the budget is submitted for grants, contracts, and other payments under each program for which there is an authorization of appropriations for that following fiscal year when the appropriations are authorized to be included in an appropriation law for the fiscal year before the fiscal year in which the appropriation is to be available for obligation." In fulfillment of this requirement, the accompanying table lists those accounts that have either received discretionary or mandatory advance appropriations since 2021 or will request, in 2023, advance appropriations for 2024 and beyond and cites the applicable authorizing statute.

The Continuing Appropriations Act, 2022 (division A of Public Law 117-43, as amended), which was in place at the time the Budget was prepared, does not explicitly address advance appropriations for 2023. As a result, this Budget, as illustrated by the accompanying table, assumes that final full-year appropriations would include language to make 2023 advance appropriations available. This is in order to ensure comparability with annual funding provided under the Continuing Appropriations Act, 2022, and to depict accurately the 2023 discretionary request levels. In general, the Budget assumes that the 2023 level that would be enacted for discretionary appropriations is equal to the 2022 advance appropriations that were enacted in the 2021 appropriations Acts. However, for the Department of Veterans Affairs and the Corporation for Public Broadcasting (CPB), the 2023 level (and 2024 level for CPB) is instead consistent with the 2023 advance appropriations (and 2024 for CPB) that were requested in the 2022 Budget.

For additional information on advance appropriations, please refer to the Budget Concepts chapter in the *Analytical Perspectives* volume.

<sup>1</sup> Historically, the Corporation for Public Broadcasting is provided a two-year advance appropriation. The 2023 request proposes a \$565 million advance appropriation for the Corporation in 2025.

The Infrastructure Investments and Jobs Appropriations Act (division J of Public Law 117-58; IJAA) was enacted in fiscal year 2022 and provided advance appropriations for several programs that become available in fiscal years 2023 through 2026. In accordance with the Congressional Budget Act requirement, the table below lists the programs that received advance appropriations in IJAA.
